CAREER SUMMARY

Highly motivated and detail-oriented MSc Computer Science graduate passionate about Data Science. Equipped with advanced skills in machine learning, data analysis, and visualization. Proficient in programming languages such as Python, and SQL. Experience with data manipulation. Profound understanding of statistical concepts. Seeking a challenging role in Data Science to leverage skills and expertise, driving business growth.

Technical Skills

- Programming languages: **Python**
- Data Base: **MySQL**
- Data analysis tools: **Pandas, NumPy, Matplotlib, Seaborn.**
- Data visualization tools: **Matplotlib, Seaborn, Power BI, Tableau.**
- Machine learning
- Deep Learning
- NLP
- **Statistics, Probability, Linear Algebra.**

Soft Skills

- **Communication:** Strong verbal and written communication skills, with a talent for presenting complex information clearly and concisely.
- **Multi-tasking:** Proven ability to multitask with excellent time management skills, prioritizing tasks and meeting deadlines in fast-paced environments.
- **Decision Making:** Can make simple and easy solutions and decisions for complex problems.
- **Critical thinking:** Analyzing complex information, identifying patterns, and evaluating evidence.
- **Risk management:** Ability to assess and mitigate potential risks associated with different options.

PROJECT EXPERIENCE

- Fake Profiles Identification in Social Networking Sites using Python, NLP and Naive Bayes Algorithm
  TOOLS AND TECHNOLOGIES USED
- ML and NLP
- Python programming
- Pandas, NumPy
- Jupyter Notebook

EDUCATION

MSc-Computer Science -2024
  Sri Venkateswara University, Tirupati.
  CGPA- 7.7

BSc-Computer Science-2022
  Sreenivasa Degree Collage, Kalikiri.
  CGPA-8.8
